

SkillsFuture Mid-Career Enhanced Subsidy For Singapore Citizens for Law Programmes offered by Singapore University of Social Sciences

This has been agreed between the Ministry of Education (MOE) and Singapore University of Social Sciences (SUSS), and the information is correct at the time of publication.

Purpose of the SkillsFuture Mid-Career Enhanced Subsidy

1) What is the SkillsFuture Mid-Career Enhanced Subsidy about?

In line with the objectives of SkillsFuture to support and encourage lifelong learning and help Singapore Citizens (SCs) stay responsive to a changing workplace, the MOE and SkillsFuture Singapore (SSG) have enhanced course subsidies for individuals to encourage and support their skills development.

SCs aged 40 and above will enjoy higher subsidies for MOE-funded full-time and part-time courses ranging from diploma to postgraduate level in publicly-funded universities, polytechnics and ITE for course semesters commencing from 1 July 2015, and for SSG-funded courses with effect from 1 October 2015.

The Government is increasing the subsidy in recognition that mid-career SCs often require significant re-skilling in the middle of their careers. This additional support from the Government helps address the opportunity costs they face. The increased subsidies will help to encourage mid-career individuals to upskill and reskill, thereby helping them to remain competitive and resilient in the job market.
